

FLEXIBILITY

- **Controller Versions** with 1 Boiler, District Heating or Ventilation Circuit, 1 Domestic Hot Water Circuit, 1 or 2 Heating Circuits, Solar System Control, Single-Room-Control-Systems for up to 8 rooms
- **System Variations** for over 60 pre-programmed versions
- **Alarm Handling**, i.e. when exceeding the programmed control deviation
- **Trend Recording** built-in memory
- **Flexible Mounting** wall mounting or control panel mounting
- **Water Resistance** (IP 54, front panel)

ENERGY MANAGEMENT

- **Demand controlled** regulation of the heat provider
- **Supply** of the required energy with optimal flow temperature
- **Load drop**
- **Burner starting** is reduced
- **Energy loss** is reduced
- **Air pollution** is reduced
